

# System Benefit Framework for the National Goals

	Maintain the Superiority of U.S. Aeronautical Products			Achieve an Efficient, Safe, and Affordable Global Air Transportation System	Ensure the Long-Term Environmental Compatibility of the Aviation System	
System Benefits Vehicle/ Cust. Classes	Performance	Efficiency & Affordability	Survivability	Capacity & Efficiency	Safety & Security	Environment
Rotorcraft	2b	2b			2b	2b
Subsonic Transport	2a 1	2a 1	3	1	2a	2a
High Speed Transport	2	2	3	2a	2a	2a
Airspace System				5	5 6	
General Aviation	2b	2b			2b	2b
High Performance A/C	7		7			
Access to Space	4	4				

## Legend:

1. Specialized Cargo Aircraft
- 2a. Efficient Lower Capacity Long Range Aircraft
- 2b. Advanced General Aviation
3. Survivable Aircraft Technology
4. Low Cost LEO Launch Capabilities
5. Distributed Airspace System
6. Security System, More Convenient and Affordable
7. Special Operation Forces (SOF) Aircraft
